AASHTOWare Bridge Design and Rating Enhancements

RADBUG
2017

Enhancements requested over the past 20 years

Testing TAG annually reviewed providing a list for the users to prioritize

TF added as many to each release as funding allowed

The remaining enhancement requests reviewed by TAG

       Some had been OBE
       Some included with modernization
       Remaining sent to the TF

TF reviewed every request the TAG provided
        Re-classified into groups

Tier 1 Enhancements being most beneficial

Your help is needed to help prioritize these Tier 1 Enhancements

Tier 1 Enhancement List

How to find out the details of the enhancements?

For Incident number starts with "VI":

- Go to BrDR Support website's Support page (https://aashto.mbakercorp.com/Pages/Support.aspx)
- Under the Customer Support Center section, open the *Legacy IssueNet Support Center Issues* PDF file
- Search for the VI number in the PDF file

For Incident number starts with "BRDRSUP":

- Go to BrDR JIRA Support Center (https://bridgeware.atlassian.net/browse/BRDRSUP)
- If you don't have a login, the username/password for the read-only access login is BrDR@mbakerintl.com/readaccess
- Search for the BRDRSUP number in the BrDR JIRA Support Center

Don't prioritize solely by reading the "Subject"

   Use the links for either VI or JIRA to read details

   Prioritize your top 10

   2 weeks an email will be sent to your end user designee
            One form for each product licensed

Instructions along with a "return by" date will be provided
