ALLIANCE

Creating more IT solutions for DOTs

The Identification, vetting, selection and management of alliance relationships that provide existing technology products and services which contribute to AASHTOWare's overall program goal of supporting transportation agencies as they perform their mission.

ESTABLISHED

AASHTOWARE BRINGS VALUE TO OUR MEMBERS

Why form an Alliance?

FUNCTIONALITY

- To FILL a functional gap
- To ADD functionality to an existing product

MODERNIZATION

- As products approach sunsetting
- When it becomes cost-prohibitive to modernize

MEET A NEW BUSINESS NEED

- Add value to our members

AASHTOWARE

ALLIANCE TYPES

DATA

Provide data access to bring together AASHTOWare and non-AASHTOWare subsystems into an enterprise system and ensure subsystems function together.

PRODUCT

Provide products and services that complement AASHTOWare solution(s) and integrate and harmonize with the solutions.

STRATEGIC

Serve in a broader and deeper relationship, with strong organizational commitment and significant business impact.

Task Force Structure Changes

- BrDR and BrM are now two fully independent task forces
- Co-locating task force meetings
- Allows for more members to get involved
